- ‘When commercial and residential interiors get the Kendall Wilkinson touch, it’s always personal. Her art-inspired, playful, and colour-happy designs reflect the holistic lives of their occupants..’- Architectural Digest
- She one of the most sought-after designers on the West Coast,

Kendall Wilkinson is a joyful creator, taking her clients’ dreams and transforming them into beautiful homes. Her new book *Beauty All Around* invites the reader into Wilkinson’s world, where she is the master of dualities: traditional and contemporary, textured and smooth, shape and colour, all combining into a singular body of work. This book reflects Wilkinson’s uniquely collaborative approach, where the character of the house reflects its occupants’ own passions and interests. With rich illustrations of some of the most impressive penthouses and family compounds, *Beauty All Around* exhibits the pinnacle of luxury with a holistic and subtle refinement.

Known for creating interiors formed around connection and experience, Kendall Wilkinson fashions together spaces that elicit an emotional response. Wilkinson has been widely celebrated for her artful interpretations of her discerning clients’ visions. It was through the lens of aesthetic individuality that she established the San Francisco-based Kendall Wilkinson Design in 1992. This is the first monograph of her work.
